Clackamas Community College opens their new automotive facility

By Robin Will

On January 31, Clackamas Community College held a Grand Opening for their newly-expanded automotive facility. Because of our support for their scholarship fund, CPPC was invited to set up an informational table and join in the celebration.

CPPC 20th Anniversary picnic set for August 21

The date is now solid for CPPC's 20th anniversary picnic. Mark your calendars now, to avoid surprises later.

It's on FRIDAY, August 21, starting at 4:00PM, in Willamette Park, in West Linn, at the confluence of the Tualatin and Willamette Rivers.

Ignore any other dates you see in print – our first-choices dates were taken, so we had to make alternate plans. This is the real deal.

We were assisted by CPPC member Doug Crawford, who lives in West Linn and was able to get a substantial discount on the park fee.

Gary Rusher will be hosting the event.

We were the only car club invited to the event.

It's difficult to overstate what this expansion means to the college, and, of course, to the students; and aside from the usual dignitaries, it was impressive to note how many businesses were represented, hoping to find employees.

Highlight of the evening was meeting the most recent recipient of the Cascade Pacific Plymouth Club scholarship, a young woman who wept as she thanked us for the opportunity. Our scholarship made it possible for her to go to school this term.

That makes things very real. I think we all choked up just a little.

Cadillac named "Ginny" is registered for our show

Registrations for the Down By The Riverside Cruise-In are already coming in on CascadePacificPlymouth.org. Some of them look interesting.

April Waterman registered her 1965 white Cadillac Calais which her dad

bought only slightly used in 1965 from a neighbor who bought his wife a new Cadillac every year. The car's name is Ginny.

There's gotta be a story there. We'll find out in June. Register now, if you haven't yet.

Joint tour with HACO on March 29 to visit private collection in La Center, WA

Here's the information for the joint HACO and CPPC joint Garage Tour, on March 29 to La Center, Washington.

We'll be visiting the private collection of Jerry Lane, LaCenter, WA

Jerry has cars, tractors, antique tools, historic barn - timbers milled from trees from Jerry's property.

On Sunday, March 29, meet at the Clackamas Community Club, 9:45 am, leave at 10:00 approx. or meet us at the PetSmart, Hazel Dell, (316 NE

78th Street, Vancouver, WA 98665) by 10:30am join the HACO Car Club tour participants.

Tour will officially depart at 11:00am from Hazel Dell. HACO tour host is Bill Barnell.

The Steering Column, A Message from the President

This year is starting off very well, with activities and plans for upcoming events under way. All of this is a result of our members putting their "thinking caps" on for the club. The first example of this I saw was the planning / lunch meeting put on by the Mayflowerers. Susan Yates and Mindy Benfield did a great job of organizing that meeting. There are now Mayflower events roughed out for the entire year – with specific dates to be set as the year progresses!

I would like to thank our member Job Pozos-Avila for giving a great talk at the January CPPC meeting. He spoke about his marathon racing skills – in which he is coming close to his goal of 100 races. Incredible endurance, sometimes running two races in a weekend!

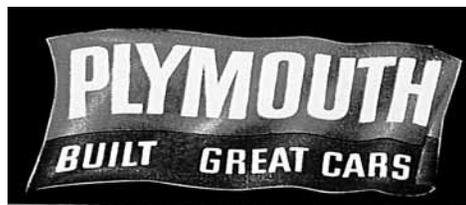

We had a great club member presence at Clackamas Community College's Automotive Technology Facility Grand Opening. With a table full of literature and hands outstretched to greet many college students, administrators and the general public, all were well informed about our work with the col-

Try something new for 2020 – attend a CPPC Board Meeting

By Joanne Dixon

It's a new year now so get out and try something new.

Members are always welcome to attend the CPPC board meetings, which are always the second Tuesday of each month. Come to Bill's Place at around 11:30 and bring your lunch. The meeting actually starts at 12:30 and runs until 2:00PM. The address is 11611 SE 106th Street, Clackamas, Or.

lege. Thanks to Mike, Jim, Robin, Donna and Gary for that setup. I thought it looked great. In a separate letter, we were thanked by the CCC Foundation for our contributions in 2019.

The club is now working on updating the Vendor Book, preparing for the annual Swap Meet, and looking toward a March planning meeting for the June car show. We could still use some donated large trophies for that show. We also just "nailed down" the location and date for our Annual Picnic (thanks to Donna Bade, Doug Crawford and Gary Rusher for overseeing the details.)

We have very interesting speakers lined up for the next two General Meetings – a presentation on car detailing for February, and on tires for vintage cars in March. Be sure and come to those meetings for a lot of good information!

Last – but importantly – at the February Board meeting, we found that about 60 club members have not yet paid their dues. Please help out and get your payments in!

Thanks to all who have given their support to me as your new President. It is welcomed!

Phil Lapin

Board plans Activities for 2020!

Check the website for additions and changes as more information becomes available. An underline means that the event will be an official club function. Volunteers are needed to host these events. Hosting generally means circulating a sign-up sheet, driving the route in advance to locate attractive stopping places, choosing a gathering place, and showing up with donuts and coffee (the club reimburses) on the morning of the tour. The host might have other responsibilities, depending on the nature of the tour. It's not difficult, other club members will help you, and it makes you feel good to see the members and their cars on the road as a club.

OFF THE HOOK –

Project Farm on YouTube

By Phil Lapin / Technical Committee
and President

I will admit that I have an insatiable desire to learn about all kinds of things – including automotive products, construction materials and home garage remedies. Many of you who read this are no doubt like me. Would you like to have answers that are truthful and verified about these types of things? Yes! But is the world full of “folklore”, “myths” and Internet deceptions about everything – also Yes!

I search around YouTube a lot, and I found a channel that is chock full of good information. It is called “Project Farm”. It is run by a fellow named Todd, and he now has over **963,000** subscribers – which is huge. Todd tests and evaluates all kinds of materials, tools, adhesives, oils and fuels. Every one of his videos is based upon a subscriber asking him to perform tests on something. He approaches these tests in a very scientific way, using logical evaluations while designing and building all of his own test fixtures. He does NOT do endorsements – all of his income is from on line subscribers (donors on Patreon).

You can find this channel by opening YouTube, then doing a search for “Proj-

By Randy Ealy

Our vendor book was last updated 5 years ago. The Tech Committee is in the process of reviewing all businesses in the current book to bring it up to date. Likewise, if you have had any unpleasant dealing with businesses currently listed, please pass that information along to me. I look forward to receiving your email or phone responses by February 1st. We hope to publish the new vendor book by the end of February. Thanks for your help. Call me at 503-864-811, or email prealy48@gmail.com.

Mayflowers to visit the Gordon House

By Mindy Benfield

The Mayflowers plan on having lunch before touring the Gordon House on Wednesday, March 11, 2020. The Gordon House is a residence designed by Frank Lloyd Wright. It is now located near the Oregon Garden, in Silverton, Oregon. It is an example of Wright's Usonian vision for America – designed as affordable housing for American working class consumers, which—in 1939—were considered to have an annual income of \$5,000–6,000. There is a website with more info at: thegordonhouse.org

There are a limited amount of slots available for the tour which lasts for one hour. Those that want to go will have to purchase their tickets he kids we saw on line A sign up sheet will be available at the Feb.25th CPPC meeting. Contact Mindy Benfield at Ben1323@aol.com if you have questions.

World of Speed remains a favorite for CPPC

By Robin Will

On Saturday, February 1, Jim Wheat hosted a CPPC tour to World of Speed in Wilsonville.

The featured exhibit was the Ford Mustang. Some of us were underwhelmed, considering the Barracuda was introduced a full 16 days earlier, but nobody remembers that, which is sort of the point. It was a thoughtful presentation of lots of iconic Mustangs, which we all grew up with. Some of us in the group were alive on April 17, 1964, when the first one was introduced.

This time we got a behind-the-scenes tour of the shop area. World of Speed

is increasingly collaborating with local high school and community-colleges to offer their facilities and expertise to school groups, which is impressive.

Even the kids' play area was automotive-themed, with kid-sized cars that could be safely taken apart, and the kids we saw were loving it. We were happy to see that WOS starts 'em early.

WOS constantly rotates their exhibits, and has access to other high-profile collections, so they never seem to repeat themselves; and their volunteer guides are fun and extremely knowledgeable.

World of Speed is a good time, every time.

We're happy to report that Bill Call is making good progress in his rehab center after suffering a stroke and will be home soon.

He doesn't have his phone with him at the rehab center, so phone calls aren't an option, and his rehab schedule is rigorous enough that visitors aren't encouraged, either.

Bill may be at home by the time everybody reads this. Dolores promises to let us know when he's in circulation again.
